Product Description

Product Description:

Stainless Steel Coil is a kind of high-grade material with superior corrosion resistance and excellent oxidation resistance. It is made from 304 and 316 stainless steel, with thickness ranging from 0.3mm to 3mm. Our Stainless Steel Coil factory provides customers with customized services, ensuring that the stainless steel coils meet the customers' specific requirements. The surface treatment can be polishing, galvanizing or other surface treatments according to customer needs. The length of the stainless steel coil can be customized from 1,000mm to 6,000mm. And the delivery time is usually 7-15 days. The price of our stainless steel coil is negotiable. All in all, our 304 and 316 stainless steel coils provide superior quality and performance.

Applications:

TAIDING steel's stainless steel coils are of the highest quality and come with a number of certification standards. Our stainless steel coils are made with a variety of alloys, such as 304 and 316, and have a minimum order quantity of 5-T. Our stainless steel coils come in various lengths, from 1000-6000mm, and have a standard ASTM, AISI, DIN, EN, GB, JIS certification. We are able to meet the needs of any customer in any industry with our stainless steel coils. Whether you are looking for stainless steel coil price, 316 stainless steel coil, stainless steel coil price per ton, 304 stainless steel coil, stainless steel coil manufacturers, or stainless steel coil stock, Jans-steel has you covered. Our stainless steel coils are perfect for construction, decoration, and industry applications, and are reasonably priced, with a price of 2900\$ per ton. We also offer a fast delivery time, with most orders being delivered within 7-15 days. We guarantee you will be satisfied with the quality and performance of our stainless steel coils.
